

Mission Statement

All students, regardless of background or skill level, will have the opportunity to pursue a growth mindset that will allow them to achieve mastery and to demonstrate they can succeed in school, in college, and in their chosen career. No exceptions. No excuses.

What is an Early College?

The Early College high school is a bold approach, based on the principle that academic rigor, combined with the opportunity to save time and money, is a powerful motivator for students to work hard and meet serious intellectual challenges. Early college high schools blend high school and college in a rigorous yet supportive program, compressing the time it takes to complete a high school diploma and the first two years of college.

CECCS as an Early College

CECCS was founded in 2006 and welcomed its first students in the fall of 2007. CECCS has grown from 320 students in 2007 to 522 in 2021. CECCS has had 13 graduating classes; the graduating class of 2021 had 148 graduates of which 96% earned an Associate degree, 60+ college credits, or a certificate before their high school graduation. CECCS has expanded to Fort Collins, Parker, Aurora, Windsor, Inverness, Castle Rock and Satellite offices in Highlands Ranch and Westminster. There is also a CEC Online School.
